## **DR Software Update Instructions**

 Choose the Software Download link for your instrument. <u>Example</u>: If you have a DR2800 Spectrophotometer, click <u>'DR2800 Software Download'</u>

## Note: The download can take up to 1 minute.

- 2) Click Open, when the following prompt is displayed: 'Do you want to open or save this file?
- 3) Select all files ending with .gz

Note: The number of .gz files varies between different instruments.

- 4) Copy all files with ending .gz to a USB flash drive. *Note: Please do not unzip the single .gz files.*
- 5) Select 'System Checks' in the main menu of your instrument. Then select 'Instrument Update'.
- 6) Plug the USB flash drive into the USB port of your instrument.
- Press OK. The software will be updated.
  Note: Please wait until the update is complete. This can take up to 10 minutes.
- 8) When the instrument software has been updated, a prompt to restart the instrument is displayed. Switch off your instrument. Wait at least three seconds and switch on again.

Your spectrophotometer is now updated.
