

Sension+ pH gel kombinationselektrod (allmän användning)

Produktnr: LZW5010.97.0002

SEK Pris: Kontakta oss

Tillgänglig

Low cost gel-filled pH combination electrode with ceramic diaphragm. Polycarbonate body. Range 0-14 pH, 0-80 °C. 1 m cable. For benchtop Sension+ instruments.

This low maintenance pH electrode is suitable for measurements in aqueous media in general. A storage protector prevents breakage and avoids over pressurisation of the diaphragm.

Specifikationer

Accuracy:	0.002 pH with pH31 Meter
Dimension (D x L):	12 mm x 130 mm
Elektrolyt:	Non-refillable gel
Garanti :	6 månader
Givar koppling:	Ceramic pin
Givartyp:	Glass
Kabellängd:	1 m
Kontakt:	BNC Connector
Längd:	130 mm
Material:	Sensor Body: Polycarbonate
Mätområde:	0 - 14 pH
Parameter:	pH
Temperaturområde :	0 - 80 °C
